EQUIPMENT LIST

Fabrication Equipment:

- Mitsubishi 4000 Watt Laser with Shuttle Table - Sheet capacity 4ft. x 10ft.
- Amada 2000 Watt Pulsar XL Laser – Sheet capacity 4ft x 8ft.
- Amada Vipros 255 NC turret punch press, 22 ton, 31 station – Sheet capacity 4ft x 8ft.
- Amada 8025 press brakes – up to 10ft., 110 ton
- OBI Power Presses – up to 60 ton
- Amada ID40 ST spot welder
- Timesaver wet finishing machines
- In house Production MIG & TIG welding
- Virtek Laser Inspection System

Milling:

- 16 - CNC vertical machining centers; capacity up to 84” x 34” x 34”
- 7 - 5-Axis CNC milling machines; maximum capacity 31” x 24” x 19”

Turning:

- 8 - CNC Turning Centers. 2-Axis and Multi-Axis turning capacity up to 15” diameter
Bar feed capacity up to 3” diameter

Grinding:

- ID / OD Grinding 6” diameter x 18” long
- Surface Grinding 12” x 24”

Inspection:

- Metris CMM capacity of 78” x 47” x 39”, equipped with digital 3D laser line scanner
- Virtek Laser QC provides rapid 2D laser inspection

Tool Room:

- Full tool room equipped with manual support equipment suitable for secondary operations, small production runs, tooling design and manufacture.

Additional Services:

- Contract Manufacturing and Assembly specializing in Mechanical, Electromechanical and Electronic assembly
- Pressure Testing
- Custom testing per customer or military specifications
